

hillcraft Green Products Information Grid

hillcraft is privileged to work with wood products that are truly one of nature's few renewable resources. We realize that the majority of other building materials are not able to be replenished by man or nature. Once mined from the earth, those resources do not "grow" back.

Our carefully selected raw materials & manufacturing practices offer a winning blend of **environmental friendliness, durability, and affordability**. We work with our customers to create unique solutions to their needs, as no one product can satisfy all requirements.

Product	Benefits	LEED Credit Eligibility	Affect on pricing
Plastic Laminates	Greenguard Certified* - low emissions NAUF (Wilsonart, Pionite)	EQ 4.5 EQ 4.4	Included at no additional cost
Roseburg Ultrablend Particle Bd (cabinet doors) & Flakeboard melamine (cabinet boxes) & Duraflake PB (c. tops)	100% pre-consumer recycled EPP certified CARB PH1 standards	MR 4.1, MR 4.2	Included at no additional cost
Adhesives	Low emitting, water-based, non-flammable, biodegradable	EQ 4.1	Included at no additional cost
Powder-coated steel parts	Recycled steel content Zero VOC emissions w/powder	MR 4.1, MR 4.2 EQ 4.2	Included at no additional cost
Waterborne wood finishes	Reduced VOC emissions Non-flammable	EQ 4.2	1% upcharge
Roseburg SkyBlend Particle Board (cabinet doors) & Flakeboard Vesta melamine (cabinet bodies)	100% pre-consumer recycled NAUF (CARB PH1 & PH2) SCS certified, EPP certified	MR 4.1, MR 4.2 EQ 4.4	6% upcharge
PureKor MDF & Medex MDF (veneer wall panel substrate)	100% pre-consumer recycled NAUF (CARB PH1 & PH2) Medex is also moisture-resistant	MR 4.1, MR 4.2 EQ 4.4	___% upcharge
Columbia Purebond plywood (veneer wall panel or countertop substrate)	NAUF soy-based adhesive Moisture-resistant Available FSC certified	EQ 4.4	___% upcharge
Duraflake FR NAUF (veneer wall panel substrate)	100% pre-consumer recycled NAUF Fire-rated	MR 4.1, MR 4.2 EQ 4.4	___% upcharge
FSC certified hardwoods and veneers	Please contact us for specie availability	MR 7	10% - 25% dependent on species
FSC certified particle board & melamine (Skyblend FSC core)	Please contact us for availability	MR 7 **	35% upcharge

* www.greenguard.org – Most domestic laminates are Greenguard certified. This does not imply that they are NAUF.

**SkyBlend FSC is manufactured in North Carolina, which voids the Local Materials LEED credit (both are 1 point)

CARB = California Air Resource Board www.arb.ca.gov/homepage.htm

EPP = Environmentally Preferred Purchasing www.epa.gov/epp

FSC = Forest Stewardship Council www.fsc.org

LEED = Leadership in Energy and Environmental Design www.usgbc.org/leed

NAUF = No Added Urea Formaldehyde

SCS = Scientific Certification Systems www.scs-certified.com

SFI = Sustainable Forest Initiative

VOC = Volatile Organic Compound
